

THE TREATY OF ANTI-ANARCHISM

*being an instrument of accession
between*
THE REPUBLIC OF CYVATHON
and
THE RESIDENTS OF CLASS 8E, TISB

WHEREAS anarchy is not freedom but the absence of anything agreed, and a room without settled order is governed all the same — only by whoever happens to be loudest; and WHEREAS the Republic of Cyvathon, founded on the twenty-sixth day of May in the year two thousand and twenty-five, has since that day possessed citizens, a treasury, a government and a law, but no ground whatsoever upon which to stand; and WHEREAS the residents of Class 8E at The International School Bangalore, being of one mind on the matter, have resolved that an order they have chosen themselves is preferable to no order at all; NOW THEREFORE the Parties agree as follows:

ARTICLE I — The Territory

The territory acceded to the Republic by this Treaty is **Class 8E at The International School Bangalore**, and no other place. It shall be known within the Republic as the first true territory of Cyvathon, and from the date of this Treaty the Republic ceases to be a nation of the web alone.

ARTICLE II — Accession by Unanimous Consent

This Treaty was agreed by **every member of the class, unanimously**. No resident is bound by it who did not agree to it, and no resident was required to agree. The unanimity recorded here is the sole foundation of the Republic's title, and if it were ever untrue the title would fail with it.

ARTICLE III — By Consent, Not by Conquest

The Republic claims this territory by invitation and by nothing else. No conquest is asserted, none is recognised, and none shall ever be attempted over any person or any place. The doctrine of the Republic remains, as in the War Room, *defence, not invasion*.

ARTICLE IV — Rights Retained by the Residents

Every resident of the territory retains every right, possession and freedom they held before this Treaty, without exception. Citizenship of Cyvathon is offered, never imposed: a resident may hold it, decline it, or ignore the Republic entirely, and shall suffer nothing for doing so. Nothing in this Treaty obliges any person to do anything.

ARTICLE V — The Limits of This Treaty

This Article prevails over every other. The authority of The International School Bangalore, of its teachers and of its staff is absolute within the territory and is in no way touched, shared or diminished by this Treaty. The Republic claims no power over any person, their belongings, their conduct or their work; it does not excuse any school rule, nor any instruction of any teacher, nor any duty a resident owes outside it. This is a compact of imagination between classmates, and it is to be read as nothing else.

ARTICLE VI — Government of the Territory

Within the limits of Article V, the territory is governed by the law of Cyvathon as it stands upon the national website: its Gazette, its Courts, its Legislature and its Cabinet. The President is Head of State. Ministers hold their briefs subject to Presidential assent in matters of national policy.

ARTICLE VII — Withdrawal

Any resident may withdraw their own consent at any time, for any reason or none, by saying so plainly; and upon doing so they cease to be bound by this Treaty in every respect. The territory itself may be released from the Republic by the same unanimity that granted it. A union that cannot be left is not consent, and Cyvathon does not want one.

ARTICLE VIII — Entry into Force

This Treaty entered into force on **2 September 2026**, and is recorded in the National Timeline of the Republic as the day Cyvathon gained ground beneath it.

DONE by the unanimous agreement of the residents of Class 8E, the text being equally authentic to all.

Prathyay

President of the Republic of Cyvathon

Date: 2 September 2026

The Residents of Class 8E

Acceding unanimously, TISB

Date: 2 September 2026

Cyvathon is a student-run micronation: a game of government played among classmates. This document has no legal force of any kind and creates no obligation on any person, school or institution.
